

Vidocq Society

Confidential Pro Bono Cold Case Homicide Assistance

The Vidocq Society is comprised of active and retired homicide investigators, prosecutors, forensic experts, profiler/behavioralists, analysts, medical examiners, and world class polygraphers who offer assistance to law enforcement agencies that are attempting to resolve cold cases.

Nine cases per year are selected for review. If a case is accepted, the Society covers all expenses for up to two investigators/prosecutors to travel to Philadelphia to present their case. Post-presentation analysis and support is also available.

The Society has been in existence since 1990 and has successfully assisted numerous departments throughout the world. We work exclusively with law enforcement agencies and pledge complete confidentiality.

The Society has been recognized in the latest National Institute of Justice Cold Case guide as being a valuable resource for investigators. We also provide training and on-sight investigative assistance upon request.
